

**Your network is down  
Nothing's working  
You've looked at everything**

**When your business suffers a catastrophic network outage, how much revenue and company value will be lost due to:**

- 01 Unprocessed transactions?
- 02 Customer abandonment?
- 03 Reputational damage?

**The threat landscape to your technology environment includes:**

- 01 Ransomware hostage taking
- 02 Denial-of-service attacks
- 03 Massive infrastructure failure
- 04 Systems configuration errors

**Your company's existing lines of defense may include:**

- 01 In-house IT department
- 02 Outsourced network security vendor
- 03 IT triage services supplied by your insurance company

**BUT YOU'RE STILL DOWN . . .  
NOW WHAT?**

# edge**red**

Edge Red is your subscription service that is your **ULTIMATE TECHNICAL EMERGENCY RESPONSE RESOURCE** to minimize costly interruption of business continuity when all your other options have failed.

You will receive immediate action from our 24x7x365 in-house team of experts who have full knowledge of, visibility to, and access to your network and will instantly begin **DIAGNOSTIC AND REMEDIATION** efforts to restore services.

We will perform a comprehensive **DISASTER RECOVERY AUDIT** to quantify your corporate risks and evaluate your company's current state of technical preparedness.

**Edge's engineers are experts in cybersecurity, networking, server infrastructure, and Voice over IP on the leading network technology platforms including but not limited to:**
